9 AM	Welcome - DJ Gehrt, <i>City Administrator</i> , Platte City KEYNOTE: Panel Discussion - The Challenges of Policing in the 21st Century - 21CP Solutions, LLC <i>21CP is an outgrowth of many of its consultant's experiences on the President's Task Force on 21st Century Policing. That Task Force produced a pioneering report on contemporary policing, creating a common-sense law enforcement agenda based on input from criminal justice experts, community leaders, law enforcement, and civil liberties advocates. The recommendations have been endorsed by the Major Cities Chief Association, embraced by the National League of Cities, and heralded by community organizations and civil rights activists.</i>
	<i>21CP Solution's trusted police leaders and experts work on the ground in police departments across the country – leading large departments and assisting smaller agencies. Policing in partnership with the community is not a theoretical enterprise for 21CP.</i>

The panel featuring Kathy O'Toole, Charles Ramsey and Sean Smoot will provide an interactive experience for attendees regarding major challenges experienced by state and local police departments related to building trust and legitimacy, managing crisis, and innovative ideas in policing.

What is a Design-Build: Why it Matters
The use of design-build as a construction project execution approach is rapidly becoming commonplace for many municipalities throughout the Midwest. Design-build, when properly planned and performed, can result in higher quality projects with fewer changes, better value, shorter completion schedules. Overall, this process lowers risk and complexity to the Owner. This presentation will provide the audience with a basic education on the benefits of design-build and the different execution models that design-build can take. Example projects from the region will also be provided to give the audience an understanding how this approach has been completed successfully with many communities throughout the Midwest.
